EXPERIENCE

Axinom

Associate Tech Lead – Frontend Engineer, *Fürth, Germany*

March 2024 – Present

- Initially joined as a Senior Frontend Engineer and led the team from day one; formally promoted to Associate Tech Lead after 8 months.
- Directed a frontend team in developing and managing high-performance web applications for international clients, ensuring seamless user experiences across diverse markets.
- Collaborated cross-functionally with design, product, QA, and backend teams to deliver multiple robust web applications, aligning them with business goals and user needs.
- Delivered client-focused solutions that not only met but exceeded business objectives, with a focus on ensuring rigorous evaluation and validation processes.
- Engineered comprehensive multi-language, cross-browser, and cross-platform support, enhancing accessibility and usability across global user bases.
- Mentored and coordinated team members, driving timely delivery across staging, UAT, and production environments, and fostering a culture of continuous improvement.
- Achieved a 98.7% improvement in application performance through rigorous optimization and code refinement, significantly enhancing user satisfaction.

Kodez

Frontend Engineer, *Melbourne, Victoria, Australia*

March 2021 – Feb 2024

- Led the development of a React-based content management system (CMS) with a microarchitecture, guiding the project from inception to a successful Minimum Viable Product (MVP).
- Engineered a modular, scalable multi-repo system using Material UI, TypeScript, and ExpressJS, significantly enhancing code maintainability and developer productivity.
- Drove adoption of Test-Driven Development (TDD) and integrated Cypress, elevating test coverage to 90%+ and ensuring high-quality, stable releases.
- Integrated complex APIs from international clients, optimizing interoperability and delivering a seamless experience for global users.
- Optimized application performance, cutting page load times by 40%, leading to a measurable improvement in user engagement and satisfaction.
- Led the strategic migration of legacy systems to modern frameworks, reducing technical debt by 25% and future-proofing the platform.

RaSoft

Frontend Engineer, *Colombo, Sri Lanka*

June 2019 – Feb 2021

- Developed dynamic user interfaces with React.js, enhancing web applications with modern, responsive designs.
- Spearheaded the development of an Employment Management System (EMS) from concept to production, showcasing end-to-end project delivery.
- *Actively participated in code reviews and pair programming, improving code quality and fostering collaborative development practices.*

Business Analyst Intern, *Colombo, Sri Lanka*

Dec 2018 – May 2019

- Spearheaded business development initiatives, contributing to a 20% increase in client acquisitions.
- Developed and optimized the company website, enhancing user experience and improving conversion rates by 15%.

EDUCATION

University of Bedfordshire

Bachelor of Science Honours, Computer Science

Higher National Diploma (HND) – Computer Science

Pearson BTECH

Higher National Diploma (HND) – Mechatronics

Cardiff Metropolitan University

CERTIFICATIONS

AWS Associate Solution Architect

PROJECTS

- **Bright Data Web Scraper:** NextJs, Tailwindcss, Firebase function and Bright Data API.
- **Rapid API Crypto App:** React, Rapid API (Coinranking and Bing News Search), Chart.js, Redux Toolkit.
- **GPT3 Modern Landing Page:** NextJs, Tailwindcss.
- **Hoobank Modern Landing Page:** NextJs, Tailwindcss.
- **Open AI Chatbot:** Next.js, TailwindCSS, Firebase, Google Sign-In and TypeScript.
- **Open AI DALLE Image Generator:** Vite, Tailwind CSS, ExpressJS, Cloudinary and MongoDB.
- **React Dashboard App:** React, Nivo Chart, MongoDB, ExpressJS, Mongoose, and Redux Toolkit.
- **Restaurant Management System:** .Net C# and MYSQL
- **Self-Balancing Robot:** Arduino
- **Music Player:** C#, Queue (ADT), Linear Search (Search Algorithm), Bubble Sort (Sort Algorithm).
- **Weather:** .Net C#, MYSQL, Weather API
- **Ecommerce:** Vanilla PHP, HTML, CSS, MYSQL and jQuery
- **Streaming Platform:** MERN, MUI, Swiper, React Router and JWT
