EXPERIENCE

KODEZ
Melbourne, Victoria

Software Engineer, Full Stack
March 2021 - Present

- **Technologies:** JavaScript, React, Redux, Router, React Query, TypeScript, HTML, CSS (Styled Components), Node.js, Express.js, Docker, Sequelize (ORM), Postgres, MYSQL, Storybook.
- **Microservices Architecture:** Developed and deployed multiple microservices as Docker containers, using Docker Compose for efficient containerized environments.
- **Security Measures:** Implemented OWASP techniques to ensure robust code security and vulnerability prevention in both existing and new systems.
- **Mentoring and Leadership:** Actively participated in the interview process, led occasional interviews, and provided guidance to interns and associates, contributing to team growth.
- **Testing and Quality Assurance:** Utilized Jest, Husky, and ESLint for frontend and backend testing in Node.js, ensuring stable and high-performance applications.
- **Development Methodology:** Adopted the Atomic Design pattern to create modular, scalable, and maintainable user interfaces.
- **Collaboration:** Collaborated with cross-functional teams of 11 members, engaging in regular stand-up meetings, retrospectives, and leadership roles when needed.
- **Project Management:** Set development deadlines, identified opportunities for efficiency improvements, and actively participated in product decisions.
- **Customer Engagement:** Worked closely with design and product teams to develop customer-facing features and tailored solutions, engaging with customers to understand their needs.

Additional Skills and Achievements

- **Extended Commitment:** Exhibited exceptional dedication and professionalism by consistently working extended hours, including weekends and late-night shifts, to meet project milestones and deliver high-quality solutions on time.
- **Documentation and Collaboration Tools:** Skillfully utilized Confluence and Jira for thorough documentation, ensuring effective team collaboration and project management.
- **Post-Release Support:** Collaborated closely with developers during production releases, addressing and resolving post-release bugs promptly to maintain application stability and performance.

EDUCATION

University of Bedfordshire

BSc. (Hons) in Software Engineering

Pearson College London

HNDE in Software Engineering

Cardiff Metropolitan University

HNDE in Mechatronics

CERTIFICATIONS

AWS Associate Solution Architect
